Allowable Subject Matter

1. Claims 18-44 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to suggest the claimed adhesive system for forming reversible adhesive bonds and the claimed method for using such adhesive systems, particularly the adhesive having the claimed features and having a polymeric adhesive component comprising at least one of polyurethanes, polyureas, or epoxy resins.

As noted in the response filed on 2/4/04, Cook fails to teach the claimed adhesive system.

It is also noted that it is conventional in the semiconductor dicing art to use an UV dicing tape that comprised ultraviolet curable adhesive that loses its tackiness upon uv exposure which crosslinks the adhesive (partially breaks it down) so that semiconductor dies adhered to the tape can be easily removed as shown for example in Sim et al (U.S. Patent 5,840,614), Spies et al (U.S. Patent 5,525,422), Hodges (U.S. Patent 5,976,955), and Akram (U.S. Patent 6,140,151). Such uv dicing tapes comprise acrylic adhesive (see Furukawa spec sheet) and there is no suggestion that such adhesives comprise polyurethane, polyurea, or epoxy resin.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Patents: 3,871,911, 4,882,399, and 4,599,273 and German patent DE 9216278 U are cited because they were either cited in the specification or the PCT search report.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **John T. Haran** whose telephone number is **(571) 272-1217**. The examiner can normally be reached on M-Th (8 - 5) and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571) 272-1226. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
